### Group Obligation Threshold Guidelines (p191)

Threshold	Reputable Deals	Disreputable Deals
5-19	No difficulties contacting high level government and corporate individuals. May purchase licensed and military equipment through normal channels.	Difficult to locate and negotiate with previously unknown black markets. May be suspected of working with law enforcement or similar entity.
20-39	No difficulties dealing with mid-level government and corporate officials. May purchase licensed and military equipment through legitimate channels.	May deal regularly with specific black markets, if known to them. May be known to specific criminal enterprises, but not widely recognised.
40-59	Difficult to deal with all levels of government, except for personal connections. High level officials may demand secret meetings.	Easier to make illicit deals with underworld figures, as well as corrupt officials.
60-79	Too dangerous for most politicians to deal with publicly. Few will risk doing so privately.	Easier to access underworld connections and moderately influential figures. Easier to make close ties to personally known underworld figures.
80-99	Unable to buy licensed and military equipment from legitimate sources. Too infamous for legitimate deals.	May locate black market and informants with ease; are well known to some underworld groups.
100+ (Obligation cap)	May not buy most weapons, vehicles, and related equipment from legitimate sources. Government agencies will often attempt to arrest on sight.	Legendary in underworld circles or regions. Reputation precedes group. Illegal sources of equipment, vehicles and weapons are available, but suppliers are wary of the risk of angering a rival faction or alerting the authorities.

### Weapon Qualities (p105)

Name	Activation	Description
Accurate	Passive	Attacker adds a number of  equal to Accurate rating to attack die pools.
Auto-fire		Increase combat check difficulty by  . Deal an additional hit to target or another target within range. If attacking multiple targets, initial target must be the one with the highest difficulty and defense. May be activated multiple times. May activate Critical Hits multiple times, up to the number of hits scored. May choose not to use Auto-fire quality before attack and not take penalty.
Breach	Passive	Ignore 1 point of ship Armor (10 points of soak) for every rating of Breach.
Burn		Target suffers weapon's base damage for a number of rounds equal to Burn rating at the start of turn. May be extinguished (see extinguish fire under environmental modifiers).
Blast	varies	If attack successful, spend  to deal damage equal to Blast rating, to each character engaged with target. If attack misses, spend  to deal damage equal to Blast rating to target and each character engaged with target. Starship blast weapons hit their primary target and every additional target within short range.
Concussive		Target is staggered for a number of rounds equal to Concussive rating.
Cortosis	Passive	Weapon ignores the Sunder quality. Armor ignores the Breach and Pierce qualities.
Cumbersome	Passive	For each point of Brawn less than the Cumbersome rating, increase check difficulty by  .
Defensive	Passive	Increase melee defense by Defensive rating.
Deflection	Passive	Increase ranged defense by Deflection rating.
Disorient		Target is disoriented for a number of rounds equal to Disorient rating.
Ensnare		Target is immobilized for a number of rounds equal to Ensnare rating. Target may attempt Hard (  ) Athletics check as an action to break free.
Guided		If attack misses, may make check at end of round with a number of  equal to Guided rating and difficulty calculated by comparing 0 silhouette to silhouette of target. If successful, weapon hits target.
Knockdown		Requires additional  per silhouette of target beyond 1. Target is knocked prone.
Inferior	Passive	Weapon automatically generates  on all checks and base damage decreased by 1. Armor has encumbrance increased by 1 and soak value decreased by 1.
Ion	Passive	Damage dealt to target's strain threshold, after reducing by armor and soak.
Limited Ammo	Passive	Expend ammo which must be purchased or obtained separately and requires maneuver to reload after Limited Ammo rating number of attacks.
Linked		Deal an additional hit to target. May be activated multiple times, to a maximum of Linked rating.
Pierce	Passive	Ignore one point of soak for every rating of Pierce.
Slow-firing	Passive	Must wait Slow-firing rating number of rounds after firing weapon before it can fire again.

  - Resting after an encounter allows a **Simple (-) Discipline** or **Cool** check to recover one strain per ✨.
  - Resting for a full week allows a **Resilience** check to recover from a Critical Injury (difficulty determined by Critical Injury severity). On failure, recover 1 wound, on ☹ recover one additional Critical Injury.
- Using a Bacta tank (non-droid) recovers 1 wound per 2 hours. If Incapacitated, recover 1 wound per 6 hours and roll to recover Critical Injury after 24 hours as if rested for a full week (see above). Using an oil bath (droid) recovers 1 wound per hour.
- Use Stimpack or Emergency Repair Kit to recover wounds up to 5 times in a 24 hour period. First restores 5 wounds, each subsequent restores 1 less.

### Vehicle Critical Hits (p162)

Dice Roll	Severity	Result	Details
01-09	◆	Mechanical Stress	Ship or vehicle suffers 1 system strain.
10-18	◆	Jostled	All crew members suffer 1 strain.
19-27	◆	Losing Power to Shields	Decrease defense in affected defense zone by 1 until repaired. If ship or vehicle has no defense, suffer 1 system strain.
28-36	◆	Knocked Off Course	On next turn, pilot cannot execute any maneuvers. Instead, must make a Piloting check to regain bearings and resume course. Difficulty depends on current speed.
37-45	◆	Tails핀	All firing from ship or vehicle suffers ■■ until end of pilot's next turn.
46-54	◆	Component Hit	Component from <b>Small Ship Components</b> or <b>Large Ship Components</b> (see tables below) is rendered inoperable until end of next round.
55-63	◆◆	Shields Failing	Decrease defense in all defense zones by 1 until repaired. If ship or vehicle has no defense, suffer 2 system strain.
64-72	◆◆	Hyperdrive or Navicomputer Failure	Cannot make any jump to hyperspace until repaired. If ship or vehicle has no hyperdrive, navigation systems fail leaving it unable to tell where it is or is going.
73-81	◆◆	Power Fluctuations	Pilot cannot voluntarily inflict system strain on the ship until repaired.
82-90	◆◆	Shields Down	Decrease defense in affected defense zone to 0 and all other defense zones by 1 point until repaired. If ship or vehicle has no defense, suffer 4 system strain.
91-99	◆◆	Engine Damaged	Ship or vehicle's maximum speed reduced by 1, to a minimum of 1, until repaired.
100-108	◆◆	Shield Overload	Decrease defense in all defense zones to 0 until repaired. In addition, suffer 2 system strain. Cannot be repaired until end of encounter. If ship or vehicle has no defense, reduce armor by 1 until repaired.
109-117	◆◆◆	Engines Down	Ship or vehicle's maximum speed reduced to 0. In addition, ship or vehicle cannot execute maneuvers until repaired. Ship continues on course at current speed and cannot be stopped or course changed until repaired.
118-126	◆◆◆	Major System Failure	Component from <b>Small Ship Components</b> or <b>Large Ship Components</b> (see tables below) is rendered inoperable until repaired.
127-135	◆◆◆	Major Hull Breach	Ships and vehicles of silhouette 4 and smaller depressurize in a number of rounds equal to silhouette. Ships of silhouette 5 and larger don't completely depressurize, but parts do (specifics at GM discretion). Ships and vehicles operating in atmosphere instead suffer a <b>Destabilized Critical</b> .
136-144	◆◆◆	Destabilized	Reduce ship or vehicle's hull trauma threshold and system strain threshold to half original values until repaired.
145-153	◆◆◆	Fire!	Fire rages through ship or vehicle and it immediately takes 2 system strain. Fire can be extinguished with appropriate skill, Vigilance or Cool checks at GM's discretion. Takes one round per two silhouette to put out.
154+	◆◆◆	Breaking Up	At the end of next round, ship is completely destroyed. Anyone aboard has one round to reach escape pod or bail out before they are lost.

### Vehicle Components (p163)

Small Vehicle silhouette <= 4	Large Vehicle silhouette >= 5	Details
Support Droid		Knocked out of commission until repaired. If a PC, immediately suffers maximum strain.
Ejection System		Pilot and/or crew unable to escape the ship in emergency until restarted or repaired.
Landing Gear		Roll d100: 01-50 stuck in landing, reduce Handling in atmosphere by 1; 51-00 stuck in retracted, any attempt at landing results in 2 hull trauma damage and 2 system strain.
One Weapon System		One weapon system of attacker's choice knocked offline.
Sensors		Sensor range reduced by one range band. If already close range, knocked offline completely and ship effectively blind until restarted or repaired.
Comms		Ship cannot send or receive electronic signals or data.
Sublight Engines		Ship's maximum speed is reduced by 1.
Hyperdrive or Navicomputer		Ship cannot make any jump to hyperspace.
Shields		Decrease defense in all defense zones by 1.
	Landing Bay	One of the ship's landing bays is knocked out of commission. Could result in temporary inability to launch or recover ships, to failure of shield and total decompression of compartment at GMs discretion.
	Cargo Hold	One of the ship's cargo holds is exposed to vacuum. Could result in cargo damaged or lost, and anyone in cargo hold may take damage at GMs discretion.
	Bridge	No starship maneuvers or starship actions may be executed. Ship continues on course at current speed and cannot be stopped or course changed until restarted or repaired.
